APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the  
 following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is  
 understood that the amount of water herein granted is only a temporary allowance  
 and that the final water right obtained under this permit will be dependent upon  
 the period of use and the average number of livestock served from the waters of  
 this source. It is further understood that this right must allow for a reasonable  
 lowering of the static water level at permittee's well due to any other ground  
 water development in the area. The well shall be equipped with a 2-inch opening  
 for measuring depth to water. If well is flowing, a valve must be installed and  
 maintained to prevent waste. The State retains the right to regulate the use of  
 the water herein granted at any and all times but does not take responsibility for  
 the use of the Federal range.

This Permit does not extend the permittee the right of ingress and egress on  
 public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit  
 holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and  
 not to exceed..... 0.006..... cubic feet per second, or sufficient to water.....  
 200 head of cattle.

Work must be prosecuted with reasonable diligence and be completed on or before..... November 4, 1986

Proof of completion of work shall be filed before..... December 4, 1986
